Article Body:
Assumption: Art becomes more valuable once an artist dies.

Actuality: Prices escalate only when demand is greater than supply. Prices can increase if the

Assumption: An artist's proof is more valuable than a print from the regular edition.

Actuality: Artist's proofs are routinely consistent with the regular edition in appearance and

Assumption: It's just a print.

Actuality: Some artist's do or do not choose to paint. Their art "translates" more successfully

Why can't you value my art from photographs?

- Liability
- As long as I am a professional art appraiser, I am held to a different standard than someone
- PLUS I like to be right!!!

Photographs do NOT reveal all condition issues and the public is not trained to properly describe

- A reproduction attached to canvas virtually looks the same as an original oil painting in a
