You may be mistaken in thinking that buying a piece of abstract art would be a simple thing to

The truth will creep up on you as soon as you look at the first painting "it is not quite the

Here is the first realization - and question to ask yourself - why exactly is this piece you a

1. It includes a colour I do not like
2. I am not sure it will go with another item in the space I would like to place it
3. A slow realization that a certain personal undesirable association is being emitted from the
4. It looks great but I am not sure it will fit the space
5. It is just right but the price is a little bit more than I wanted to pay... and the list goes on

Although I do not have all the answers I will endeavour to reveal, from my own personal experi

So, you see a picture you like but the colour combination is wrong. Put simply the thing to do

If size is an issue then I would advise the same as above - contact the artist and tell them t

Make sure that when you do make a purchase that the artist is offering a return policy. I have

Price can be a tricky challenge - but many artists offer different ways to help you buy the pi

Some artists will not barter prices - but they may be willing to sell you the work if you pay

Let us say that you see an artists work - you love the style - you would very much like to hav

One final thing worth mentioning is the fact that a growing number of artists are making their

If none of the above proves to be useful to you then the simplest thing to do is contact the a
