

Title:

Chery Automobiles: China's Auto War Begins

Word Count:

746

Summary:

Chinese made cars will soon be cruising many American streets. Much like Asian makes before it

Keywords:

Chery, Shuanghuan, Geely, Oriental Son, Windcloud, Flagcloud, Tiggo, Daewoo, Toyota, Honda, Ford

Article Body:

China is laying plans at this very moment to begin shipment of passenger vehicles to the North

Chery, a state-owned car producer formed in China's eastern Anhui Province, is currently building

At present, the Chery vehicle line up includes the tiny QQ; a compact SUV built jointly with Mazda

Current prices on the other models have not yet been set, but published reports this past summer

While the Chery dealer network within the US has yet to be established, it is under development

While it is too early to say, the opening of the lucrative North American automobile market to
