Show it to Other Magicians

Before plunging straight to the stage, be sure to show it to other magicians from your local group

Keywords:

magic, trick, oath, magicians, sleights, show

Article Body:

So you've decided to be a magician. Now you want to join a local group to learn a lot of tricks

Show it to Other Magicians

Before plunging straight to the stage, be sure to show it to other magicians from your local group

Remember to ask for help if you're struggling with your tricks. Ask them if you're doing it right

Plan Your Show

You can't really barge in front of an audience without knowing the order of how you'll do your tricks

The first trick should be something that will catch attention. Don't call on an audience volunteer

Remember that all your tricks should flow from one trick to another. It should be like a story

Length of the Show

If you're in front of an audience that is paying, give them something that will not make them bored

If you're doing it for kids, do something simple and short. Remember that a child's attention span is short

If you're doing street magic, just give them one of the tricks you've mastered. Just mesmerize them

Remember to practice, plan and time your show. A great show doesn't need to be long to be good
