Keywords:

top tv brands

Article Body:

Exciting things continue to happen in the television market. Television sets continue to increase in popularity.

Televisions make good family or personal gifts for holidays, birthdays or other special events.

Casio

Casio Corporation has been leading the market in producing a number of televisions and related products.

Long life batteries will keep you tuned in for two hours on a charge, or even longer in sound.

Hitachi

Hitachi has been around as a corporate entity since 1910. Products include everything from die-cast metal parts to precision machinery.

Panasonic

Panasonic was originally established in Japan just prior to World War I and moved to Great Britain in 1956.

Sharp

Sharp products began with the Ever Sharp Pencil following its establishment in 1912. By 1964 the company had expanded into the television market.

Sony

Although Sony entered the television and electronic equipment market much later than some of the other brands, it has become a major player.

Toshiba

Toshiba was created in 1939 by a merger of Shibaura Engineering and Tokyo Electric. Toshiba is now one of the world's largest electronics manufacturers.

The 28" screen is another plus for the equipment, as is the wonderful sound quality you get when you watch.
