Making your Own Design ~ Things to remember:

Before setting up your machine for an embroidering project, there are several things you need

1. Smaller designs are always easier for embroidery. For example, 3 - 4.5" wide for left-chest

2. The primary location of the embroidered design doesn't always have to be in the middle. For

3. Try to avoid mistakes, but if you do make any, try to fix it by tearing it out, covering it

4. Black bobbin thread or the same color thread should be used as the top when embroidering te

5. Change the needle frequently and use a new one every time you start a new embroidery projec

6. Outlines of objects and text should be of minimum size, especially for logos. Smaller objec

7. For smaller digitized text designs, choose fonts that are simple and easy-to-read fonts suc
