

Title:

The Different Styles of Inuit Art Sculptures

Word Count:

342

Summary:

This article summarizes some of the general artistic styles of Inuit art from some of the major regions.

Keywords:

inuit, eskimo , art, sculptures, sculpture

Article Body:

At first, all Inuit soapstone sculptures from the Arctic may look alike. However, there are variations in style.

Some areas specialize in producing small scale miniatures much like the artwork by their ancestors.

One thing that all Inuit sculptures have in common is that they show the fact that Inuit people are artists.

The differences in artistic style are partly due to the different types of stone and other materials used.
