Signs, Road Signs, Neon Signs, Welcome Signs

Article Body:

If you are going to take a walk at night, notice the luminescent, glowing signs that are graceful

The first neon sign appeared in France in 1910 at Grand Palais. The display caught people's attention

Neon signs are created out of brightly colored gas discharge lamps filled with a certain gas.

One known advantage of neon signs is that electrical cost is relatively low. The typical lifespan

If you are wondering why those neon signs vary in colors, it is because these signs are created
