298

Summary:
Affordable transcription means cost-effective transcription services to clients using web base

Keywords:
affordable transcription services, transcription services, affordable transcription, uploading

Article Body:
Affordable transcription means cost-effective transcription services to clients using web base

To make transcription affordable, the transcriptionists mainly use two kinds of services.

1. FTP Digital uploading: Uploading audio files for transcription to an FTP is the most c
2. Call-in dictation: In call-in interview, a toll-free number is dialed via a touch-tone

Call-in dictation has many benefits like:

1. No capital expenditure for software.
2. 24 hour service availability.
3. Ability to dictate from anywhere, only a phone is required.
4. The costs are only for the minutes one is using.

This kind of dictation is ideal for interviews, meetings and group discussions. Here, the tran

Companies that claim their transcription services are affordable are

- 1) Are using advanced technology.
- 2) They are getting their transcription outsourced at a cheaper destination
- 3) They have a very large client base

By providing good quality recordings, one can make transcription affordable, as the turnaround
