Article Body:

You have probably seen advertisements for "Free Business Cards" someone online. How could they

It is a good question, and one I wanted to know myself. I choose a company that offered so cal

I first noticed that they didn't just have the free business cards offer, but they also sold u

This particular company also sold magnetic business cards, plastic business cards, metal busin

The free business cards offer was beginning to make a little more sense.

I would guess that the percentage of people taking the free business cards are mainly business

But are they really free?

I decided that I should go ahead and order some of these free business cards. This way I would

I decided which company I would order from then went to the order section

The first thing I had to do was design my business card. After my design I got to the order se

When I got to the final checkout, there were many options, more upgrades available. I chose no

After all of this, I found out that "Free Business Cards" are really free!
