

Title:

Business Grants.

Word Count:

479

Summary:

Anyone planning about going into business for himself, or wishing to enlarge an existing business.

Keywords:

Government, Grants, Business, Money

Article Body:

Anyone planning about going into business for himself, or wishing to enlarge an existing business.

It is absolutely amazing that people living right in the United States of America wouldn't know.

While there are still no direct small business grants that can be borrowed from the federal government.

Attempting to get funds through a orthodox financial institution can be very lengthy and require a lot of money.

There are some Government grants that are available for EXPANSION OF businesses (but not to enlarge an existing business).

GRANT is not exactly a loan, This money is interest free and non taxable . None of these plans require a lot of money.

Majority of people never want to try for FREE government GRANTS since they feel it is not meant for them.

Over \$29 trillion dollars in low-interest loans and free grants;

over one-third billion dollars in obtaining of contracts; and

Around \$32 billion dollars in research grants FREE consulting.

With a market that remains unpredictable, and a requirement for even greater economic growth of the United States.

The fact is, however, that people from all aspects of life do receive GRANTS MONEY free and of no cost.
