Article Body:

It's not so much the kind of obedience training you do with your dog, but actually doing any t

There are four basic options for training your dog: enrolling in a class, sending the dog away

The first option is to take a class with your dog. A vet might recommend a professional trainee

For a second option, you can take your dog to a training facility either during the day (like

A third choice is training your dog on your own. The most difficult part of this is remaining

The fourth option is to work individually with a dog trainer. This is good if you need work on

Each person and dog is different, so you should use the best method for whatever dog you own.

Above all, you should pick the suitable training methods for your lifestyle and your dog while
