

Title:

How To Buy A Printer

Word Count:

510

Summary:

A Lot of people tend to just go cheap when buying a printer, but in the long run it can end up

Keywords:

printer ink

Article Body:

A Lot of people tend to just go cheap when buying a printer, but in the long run it can end up

Check the prices of the ink cartridges of the printer you are considering and find out how many

Manufacturers very often list faster print speed specifications on their packaging than we see

Some color ink jets can print photos at a level that approaches the quality of a professional

If you print mainly text documents, consider buying an inexpensive black & white laser printer

Color laser printer toner cartridges are the most expensive consumable you can buy for a printer

Price does not necessarily translate to print quality or speed. Shop Around.
