Article Body:

Looking to buy a new computer?

Overwhelmed by all of the options available to you?

Stressed by the high cost of computers today?

For most people, buying a new computer does not have to be as stressful as buying a new car. N

Here are 3 simple ways anyone can save money when buying a new computer:

1) Shop around for best deal.

Sounds pretty obvious. But many people don't realize they don't need the fastest, most expensi

2) Install your own ^extras~

Many computers you will find in a store have a lot of extra software already installed. While

3) Don't buy extended warranty

If you are not a computer ^techie~, the extended warranties offered by the computer retailers

If you have an unlimited budget, consider yourself lucky. And if you do business on the comput

Hope you find these tips helpful, and happy computer shopping!
