Article Body:

7 INCREDIBLE advantages of "Water-Powered Car" technology to YOU

<http://www.burn-water.net>

Article Summary: No doubts about it, it's now possible to power your car on water as well as g

Below are 7 of these incredible advantages of the water for gas to YOU:

- 1- Improves your gas mileage by up to 35%. This includes both city and highway driving conditions.
- 2- Eliminates harmful exhaust emission that pollute the environment and contribute to global warming.
- 3- Greatly enhance engine power and performance. The more gas you use on your car, the more the engine will burn.
- 4- Remove carbon deposits and prevent future carbon build up.
- 5- Reduce the operating temperature of the engine and waste heat into the environment.
- 6- You will notice a calmer, quieter and much smoother engine operation and smoother gearshift.
- 7- Enjoy a longer life expectancy of your engine, especially the pistons, rings and valves.

These are just some of the many advantages of water for gas technology to YOU. Remember, even
