

Title:

An Easy Way to Build a Home Network

Word Count:

231

Summary:

If you have more than one computer at home, you are probably better off connecting them or net

Keywords:

network, computer

Article Body:

If you have more than one computer at home, you are probably better off connecting them or net

There are two main types of home networks, wired and wireless. While wired home networks are

If you don't want cords running all over the place, you can easily get rid of them with a wire

Wireless networks are extremely inexpensive, you can hook up a few computers for less than \$20
