It's difficult to imagine that anyone who logs on to the Internet has not heard of "Spam." Mos

For those of you that may not be familiar with the term, rest assured we're not talking about

Many believe this brand of "Push" technology is or will be, the death of email. Yet, as long a

RSS, is the Total Opposite of the above "Push" technology. When subscribing to an RSS Feed, su
another message from the owner of that particular feed. Hence the term "Pull" Technology.

Utilizing RSS "Pull" technology has become a popular source of income for webmasters that use

Let's say, you set up a one page mini-site or you could even set up a Blog. A Blog would be a
alternative.

You can then host ads from either Google Adsense or the New Yahoo look alike Google Ads. When
your page and clicks one of your ads, You Get Paid.

If you've followed along and done the steps above, you've created a good starting place. You'r
Like any site or page, the more targeted traffic you get, greater are the chances that someone
Which increases your Income.

Now, by using the power of RSS you increase your pages earning potential. When you add an RSS

Especially if you add 10 or 15 RSS Feeds to your page. You will create a dynamic, ever changin

Any web page can be turned into a dynamic web page. Just use the free RSS creator software cal
http://www.geckotribe.com/rss/carp/

After you set the program up on your website and added the proper code to your website, then y

You've got your web page, It's topic is about writing articles. Go to Google News, Get their R
Code, Insert it into the designated Carp Coding, then make the necessary changes found below:
http://news.google.com/news?hl=en&q=writing+articles&ie=UTF-8&output=rss

Same with Topix.net, adjust the code like this:
http://rss.topix.net/search/?q=writing+articles&xml=1

Once you've got your web page uploaded, It will automatically pull in fresh content from Googl

Do these things for any web page and watch your search engine ranking soar and also your Incom
