Keywords:

targeted keywords, SEO, optimization

Article Body:

Most Webmasters only think of their main keywords when the term, 'targeted keywords' come into

Every Webmasters should have a list of the targeted keywords for their sites and keep expanding

There are two ways we can go about to increase and expand our existing targeted keywords list.

To increase our current keywords depth, we can examine the Search Engine auto-complete feature

Another great example of improving the depth of your keyword list is to use the online keyword

In terms of expanding the breadth of the keyword list, we must constantly check out our visitor

To conclude, it is very important to target on new set of keywords from time to time as this w
