

Title:

Rid Your Computer Of Spyware

Word Count:

374

Summary:

Everyone seems to be asking these days: why is my computer so slow? Well, the answer to that is

Keywords:

computer,internet,computer beginner,computer newbie,spyware

Article Body:

Everyone seems to be asking these days: why is my computer so slow? Well, the answer to that is

First, stop using Internet Explorer! I know you may be shocked, but Microsoft's internet browser

Secondly, download these two free programs: Spybot (safer-networking.org/en/index.html) and Ad

Finally, be sure to use a firewall. A firewall is just what it sounds like, a ^wall~ between y

Good luck and be safe!
