paggers, mobile phones, messages, technologically, voice mails

Article Body:

With all the complicated and technologically exciting tools that we pretty much take for granted

The answer is exactly because it IS simple and basic. The beauty of the pager is that you can

With a pager, you can screen your messages and then pick and choose when to return a call, or

You are therefore able to stay in touch with those who need you, but not dangerously (in traffic)

Another option is to bundle the best of both technologies ~ many cell phone companies offer pa

Pagers are a smart, simple, efficient tool and an economically sound investment. They run a lo

Sometimes the old adage is still true and even applies to modern communication technology: les
