

Title:

Used Computers are by far the cheapest solution

Word Count:

391

Summary:

Cheap computers and monitors can be found everywhere, but new isn't necessarily best. A second

Keywords:

cheap, low cost, computer, hardware, monitor

Article Body:

Cheap computers are everywhere. Dell is offering some stupidly priced computer hardware at the

Low cost computers can also mean second hand and there's a few good reasons to buying used.

- 1) The processing power of a used computer may not be much less than that currently on offer b
- 2) You don't need the latest and fastest computer to produce a spreadsheet, surf the web, writ
- 3) A used computer has been road-tested. It's not going to fail on you any time soon.

There's other reasons to get a used computer, but basically, that second hand unit you've been

A CRT is pretty much as good as a TFT when it comes to energy efficiency. There's only a few

Cheap used laptops do however have some downsides. These include the battery life and general
