Article Body:

Eyewear is now classified as a fashion accessory aside from being a necessity for many people.

The trend

These days, sunglasses and various types of eyewear are more than just necessities to protect. It's interesting how a certain piece of eyewear can define the individual personality of the owner. Originally, sunglasses were associated with celebrities who need to maintain anonymity when they

What's in style

Shopping for eyewear can be quite daunting because the styles have gone beyond the basic frames. If you're feeling adventurous, this season brings futuristic designs and bolder colors. The Sp

Bigger frames

Bigger frames are still in style today. Square-shaped and aviator glasses are quite a hit. However, for corrective eyewear, black is still a good choice but brown, grey and silver are also in se

Color

Layered and colored effects are popular among the younger crowd. Plastic frames in two-color o. For lens colors, black is still a classic shade that will never go out of style. Other hues to

More than just basics

Before, eyewear is just that â ^ a pair of glasses mounted on a plain frame. These days, howev

Selecting the right eyewear

As earlier mentioned, the right choice of eyewear can easily turn your whole outfit from drab. While it's more practical to have just one pair of corrective eyewear for all your needs, it
