Latest Cosmetics for the Modern woman and their uses:

These are the cosmetics used for makeup.

1. Foundation: This is used to give the skin an even tone. It neutralizes red cheeks, broken veins
2. Face Powder : This is used to set the foundation which would otherwise within 2-3 hours, slip
3. Concealers: These are required to 'blot' out dark shadows under eyes, broken veins, high cheeks
4. Blusher: This is the first of the color cosmetics that you apply to your face and one of the
5. Eyebrow colour : This is used to add colour to the eyebrows. These colours are either in the
6. Eye Shadows: These are used to give colour, definition and shape to the eyes.
7. Lipstick: This is used to balance the made-up face and to emphasise the mouth. Nowadays, lip
8. Highlighter: This is generally used for dramatic effects to give a flattering 'lift' to a face
9. Shaders and Contours : Shaders are always brown and are used around the face to give a slim
10. Mascara : This is used to emphasise eyes further by adding colour, thickness and sometimes

When Buying cosmetics and perfumes online make sure to buy from proper sources to avoid buying
