fashion, clothes, beauty, style, clothing

Article Body:

Girl, are you intelligent, funny with a fab personality and an eye for the newest fashion trends?

Your personal style speaks volumes about who you are so let's not blow it after you've spent your money.

The key to putting together a great outfit is risky and simple. The rule of thumb is balance and moderation.

Choose one ^wow~ item and build around it. For example, if you have this absolutely fabulous pair of shoes.

Want to show off your new elaborately stitched jeans? A solid shirt paired with heels works well.

How about those new bright pink pumps? You can't go wrong by complimenting the shoes with a pair of jeans.

And what about those gold sequin flats that you just couldn't pass up? Petal-pushers and a simple top.

The key is to pick one item and build around it. Don't just stick with one look. Be glamorous on your own terms.

Take the time to educate yourself on different styles. Learn how to draw inspiration from your favorite fashion icons.

Fashion is about confidence. If you feel great in an outfit, others will feel your vibes. And you'll be the envy of everyone.
