Article Body:

Banks won't lend money to a business seeking to acquire larger contracts because its not viewed as a high priority.

So what is Accounts Receivable Financing? It is the selling of your accounts receivable invoices to a third party.

Securing the services of an Accounts Receivable Financing Company will allow a small company to get the cash it needs to grow.

One of the major concerns for most small business owners is how much does Accounts Receivable Financing cost?

Not all Factoring companies are created equally (you can't tell that by looking at their web page).

Sometimes an A/R Broker has a choice, but not all the time. For instances, there are not that many A/R Brokers in the market.
