payday loan, disposable income, short term loans, quick loans

Article Body:

The research from KBD has also revealed the full extent of the north-south financial divide.

Taking the UK as a whole, the typical household has some £40,000 of disposable wealth, but this

An average London family will possess £81,732 in readily-accessible cash, while the Midlands s

The gap, however, is closing ~ the Scottish figure was in fact a 35 per cent increase on that

London may top the charts, but its disposable income figure has only escalated by two per cent

Matt Boot, chief analyst at KDB, commented on some of the factors behind these fresh figures.

He said: "Early signs in 2006 show an upturn in housing values along with continued stock market

"Although absolute disposable wealth levels per household still show a marked north-south divi

This is heartening news for many Brits ~ but also indicative of how volatile and changeable su

Therefore the role of a payday loan ([http://www.mypaydayloan.co.uk/fact\\_fiction.html](http://www.mypaydayloan.co.uk/fact_fiction.html) ) becomes

A sum of between £80 and £1,000 can help you foot the bill for that one-off event or occasion,
