Article Body:

Just about everybody has heard of identity theft, but most people do not believe it could even

When it Happens

If a person becomes a victim of identity theft, it can take a long time - possibly years - to

If identity theft does happen, the person who is the victim will probably experience problems

All of the results of being a victim of identity theft are not fair, and are very difficult to

Protect Personal Information

The easiest way for identity thieves can assume another person's identity is to obtain personal

While most victims do not offer thieves their personal information, they are not aware that th

Thieves are also known to go through people's mailboxes to obtain in-coming letters from banks

In-coming mail is not the only source of mail-related information that thieves can acquire. Ou

Other Ways to Prevent Identity Theft

It's not difficult to perform some easy steps to prevent being a victim of identity theft. In

- Always destroy receipts, credit card applications, tax information, canceled checks, and mor

- Even if a credit card is expired, cut it into tiny little pieces before throwing it away. So

- Report stolen credit cards immediately to credit card companies. Don't wait an entire day o

- Monitor credit reports on a regular basis, and watch for anything suspicious. If anything ou
