

Title:

Forex Profits by buying and selling at the same time?

Word Count:

445

Summary:

This article shows how it is possible to make money buying and selling the same investments at

Keywords:

hedged grid trading, grid trading, currency trading

Article Body:

This article is one of a series which looks at the advantages and weaknesses of trading using

We will look at how money can be made by breaking a number of trading truths or principles; \*

The hedged grid trading system uses the principle that one should be able to cash in at a gain

Let's say that a trader enters the market with a buy and sell active when a currency is at a 1

The grid system requires one to make sure that cash in on any movement in the market. To do th

The second sell has now gone positive by 100 and the second buy is carrying a loss of -100. Ac

Now the first sell that remained active has moved from level 200 where it was -100 to level 10

The 4 transactions added together now magically show a gain:- 1st buy cashed in +100, 2nd sell

There are many, many other market movements that turn this strange ^buy and sell at the same t

There will be more on the hedged grid trading articles to be issued regularly. Please watch th
