

Title:

How to Repair your Credit: Consolidating Credit Card Loans

Word Count:

341

Summary:

You can also consolidate in other ways. If you have a credit card with an extremely low interest rate, you can use it to consolidate your other debts.

Keywords:

consolidate credit card debts, repair credit, bad credit

Article Body:

If the bills seem to be getting bigger every month, budgeting can help you begin to save money, and you can use the money to pay off your debts.

First, make a list of all of the credit cards you own, along with the debt on each and the APR. Then, you can compare the interest rates and see if you can get a lower rate.

Next, contact a debt consolidation company. Talk to a representative about your financial needs and see if they can help you consolidate your debts.

You can also consolidate in other ways. If you have a credit card with an extremely low interest rate, you can use it to consolidate your other debts.
