

Title:

Identity Theft is there hope for victims?

Word Count:

322

Summary:

are you safe from identity theft

Keywords:

id theft, identity fraud, id fraud, identity theft

Article Body:

One of the lesser known Id theft sources comes from none other than your credit card company or some other source of a data leak and to make matters worse. There are a truly amazing number of data breaches every year, from a wide variety of sources, verified.

Here are some statistics from 2007 thru 11/28/2007

| | |
|--|------------|
| Banking/Credit/Financial total number of files exposed | 9,303,617 |
| Business such as retailers | 57,950,790 |
| Education | 1,180,875 |
| Government/Military | 7,763,519 |
| Medical/Healthcare | 3,635,136 |
| Total number of records exposed | 79,473,937 |

You have certainly heard of all of the companies that promise or even guarantee to protect you
