Word Count:

278

Summary:

Life insurance is a type of insurance that pays a sum of money to the beneficiary of the insurance policy.

Keywords:

Life Insurance

Article Body:

Actually life insurance is an agreement between insured and insurance company. Insurance company provides life insurance policy to the insured.

Life insurance policy offers security to the surviving family members in case death of a loved one.

Cost is the major factor in life insurance policy that totally depends on life, health and occupation of the insured.

Premiums in the initial stages, of the term life insurance policy, are low but it increases gradually as the insured's age increases.

Premium remains same in variable life insurance. It provides permanent protection to the insured.

Choose the best life insurance policy and make your loved ones happy after you.
