Article Body:

Saving Bonds are issued by US Treasury Department. These are not tradable anywhere in the market.

Generally there are three series of interesting saving bonds. They are, I Series, E/EE series

Series EE Bonds : They replaced the Series E bonds. You can easily buy the EE bonds at a discount.

Series HH Bonds: They are available for purchase only in exchange for Series EE or E bonds and

Series I Bonds : These bonds are available at face value only. They grow with inflation-indexed

Bonds and Series EE Savings Bonds are of similar type as they are accrual securities. They will

Series HH Savings Bonds are current income securities. You receive your earnings semiannually.

The benefits of parking some savings in these saving bonds is two way: first you get a cut in

Another great thing is that they are registered securities so in case you loose these bonds (p

The bonds are very affordable as you can start purchasing them with as less as USD 25.The bond

In case you are tied up, no need to fret, these bonds are valuable online also. So all you hav

You can sell them anytime you wish to, once the initial holding period of 12 months is over.

Saving Bonds are safe and secure securities to park savings for good returns. They are easy to
