Article Body:

Fast money is the name of the game in this fast paced society that thrives on instant gratification.

So is there something wrong with fast money? Not necessarily but you must be careful. Things to watch out for.

Another problem with fast money is that you can only save up so much of it at once. Most savings accounts have a limit.

Now there are methods of making fast money that certainly aren't worth the cost. I am talking about things like gambling.

All that to say that fast money isn't automatically bad but you should think twice before you get into it.
