Many of us think that having a swimming pool in the home is just great. Well, it is really gre

What steps can you take to ensure safety your personal safety and safety of other people using

- Keep signs in those areas of the pool where the water is deep
- Have life vests and rescue equipment available in the pool area
- Never keep any electrical appliances around the pool area because water conducts elect
- Children should at no point be unsupervised, even though they have undergone swimming
- Pool chairs and table should not be kept close to the pool because children will climb
- Pool covers should never be kept on partially because children are seen to get trapped
- Learn CPR because you can save someone's life with this knowledge
- The pool area must be completely fenced and make use of self latching gates to keep th
- Do not leave toys in the pool are as a child can just get wander unsupervised into the

Pool safety is something that should be known to everyone so that safety measure can be implem
