How to Make Jello Shots

Making a Jello shot is like making regular Jello but instead of adding water, alcohol is the m

For a basic selection of jello shots a simple jello shot recipe has been drawn up for you to m

1 - 6 ounce package of gelatine ~ any flavour of your choice

16 fl ounces or boiling water

6 fl ounces cold water

10 fl ounces 80-proof Alcohol - 40%(ABV) or higher

Grab yourself a mixing bowl and add the gelatine powder together with the boiling water. Let t

Place the shot glasses, jello moulds or cups and place onto a tray in the fridge for at least

Tips

Depending on the strength of alcohol, you need to adjust the ratio of alcohol to cold water to

13 ounces of 30-50 proof alcohol - 20/30% abv - to 3 ounces cold water

10 ounces 80-100 proof alcohol - 40/45% abv - to 6 ounces cold water

6 ounces 150-200 proof alcohol - 75/100% abv- to 10 ounces cold water

If you would like more "potent" shots, you can amend the recipe a bit. This variation makes 6

Key

Fl=Fluid Ounce

1 Cup=8 fl

(ABV)=Alcohol By Volume
