Article Body:

All the research over the past 40 years shows clearly that EEG biofeedback training (aka Neuro

However, at an average cost of \$4000+ per ADHD child, the mid or low income family simply cannot

Now a new therapy called Neuroliminal Training has also proved by extensive volunteer testing

Instead of going to a clinic costing from \$75-\$250 per half hour, sitting in front of a computer

In a test in 2006, 23 volunteers conducted an 8 week test, and all 23 improved just as would be

The inventor, and patent holder, Dr Phil Bate, is presently starting a new volunteer test. He
