

Title:
Air Purifiers

Word Count:
486

Summary:
A look at why it is sensible to use an air purifier and what an air purifier does.

Keywords:

Article Body:

Breathing is something that is vital to life. It is something we all do and need to do constantly.

This article is not about breathing though; it is about what we breathe. Well, that is obvious.

Apart from the components of air such as oxygen, which is the bit we need, the air you breathe

So what do air purifiers do? Quite simply they filter the air that you breathe near to them. They

There is another type of air purifier, the HEPA type which can filter out particles down to 3

There are also ozone air purifiers but some people have suggested that these may not be good for

Before you buy your air purifier you need to make sure it suits your needs so make sure you can
