

Title:
Allergy Management

Word Count:
540

Summary:
A common problem for an increasing number of people, allergies are not curable but can be managed.

Keywords:
allergies, allergy management, allergy control, allergy cures

Article Body:
These days of increasing pollution levels mean that more and more people are becoming victims of allergies. There are, however, no methods of curing allergies and therefore the best measure that can be taken is to avoid allergens. The worst allergic reaction is when a person goes into anaphylactic shock, which can lead to death. One of the most common allergies is stated as being allergic to "dust", this is however a misnomer. There are products available that can decrease the occurrence of allergens that commonly occur in the home.
