Article Body:

Does male Andropause cause testosterone levels decrease with age? Research tells us that men t

Because female Andropause is so sudden, the effect of declining hormones is much more obvious.

What happens to men that treat male Andropause by replacing the male hormones? Here is a list

- Increase in mental quickness
- Improved enthusiasm for daily life
- Depression lifts that they didn't know was there
- More energy and a desire to be more active
- Increase in sex drive demonstrated by night dreams, spontaneous erections and an overall inc
- Improved muscle tone and reduced fat

Replacement treatments approximates the natural, endogenous production of the hormone. The ave

This therapy is contraindicated in men with carcinoma of the breast or prostate, as it may cau

Male Andropause can effect the levels of testosterone and as a result, the male sex drive. For
