c) Both in a package along with other discount options.

Tick your choice. Is it (c)?

Do you really believe on the marketing gimmicks that plastic surgeries are as easy and accepta

However this is not the only marketing gimmick we have seen so far. Last year around 65000 ope

Not only the film actors and actresses or pop stars, but general people, who can afford to hav

One may find a lot of such advertisements in the back covers of a number of Woman's Magazines.

One cannot help supporting the views of General Medical Council that all patients should be re

In many of such cases they hardly even think about the issue regarding 'aftercare'. Whatever l

Many research studies have shown that where aftercare is poor, the rate and extent of complica

The operating surgeon ideally needs to keep in touch with the general physician of the patient

To add to this, one must remember that, any doctor may call himself or herself a plastic surge

This is reason enough for you to be careful enough while selecting a plastic or cosmetic surge

However, if financial assistance is needed, there are a lot of cosmetic surgery and treatment

Never settle for gimmicks; it never pays in the long run.
