

Title:

Alarms are a preventative measure, not a cure.

Word Count:

342

Summary:

The most important part of any home security system is the burglar alarm.

Keywords:

home, security, alarms

Article Body:

The most important part of any home security system is the burglar alarm. In its most basic form

Burglar alarms are generally hard-wired into the walls of a home, so that they can't be easily

Unfortunately, people are often mis-sold far more advanced home security systems than they act

The dirty little secret of burglar alarms is that it's not the features of the alarm itself th

With this in mind, instead of spending lots of money on a burglar alarm, many people prefer to
