Article Body:

Here's the short lesson on blood stain removal: act fast. Carpets today usually come with stain

Step-By-Step Blood Stain Removal

1. Rinse and extract the blood stain with cold water. Apply just a little at a time, so you do
2. Remove the remaining stain with a solution of a few drops of Dawn dish washing detergent in
3. Repeat the process as many times as is necessary, or until there is no more transfer of the
4. Leave the fan blowing on the area to dry it quickly. Otherwise, set a stack of paper towels

Some have reported good luck using club soda to remove blood stains, so if the above instructi
