Article Body:

Leather is a very durable material and needs to be cared for. To care and protect your leather

- Apply protecting products just after purchasing and three to four times a year thereafter
- Keep your leather moist with a high quality leather lotion.
- Do not use any cleaning products on any leather that is not made specifically for leat
- If your handbag or other leather product is suede, use a cleaner that is made for sue

Some cleaners that are made for leather may not be for use on suede. A good rule to go by is

When wearing or carrying leather, do not spray perfumes, hair spray, body sprays, or any other

How you store your leather is very important. Leather must be stored in a breathable containe
