Head lice, lice, nits, lice policy

Article Body:

There are many public schools that have very strict ^no nit~ policies when it comes to dealing with head lice. Many school officials, including school nurses may lack the expertise necessary to determine if a child has head lice. There is some controversy over the ^no nit policy~ implemented at schools. Excluding children with head lice from school. Despite the fact that there is some opposition to the ^no nit school policies~ there are some

For communities to actively control head lice infestations, there has to be a universal protocol. With the ^no nit ^ head lice policies, those who are responsible for checking to ensure a child does not have head lice. Though it is true that a child who is isolated due to a head lice infestation may have some emotional issues. All this is not to mention that most healthcare specialists believe that the number one cause of head lice is
