Article Body:

The scenario:

A newlywed couple moves into their new home. After a couple of months, they realize that they

Your mission:

See how fast you can arrive at the correct solution by using the following clues: 1) The garba

2) The couple did not bring any garbage bags with them when they moved

3) The bags were not in the couple's new home when they arrived

4) The fact that the two people are newlyweds is irrelevant

5) The type of home that the couple moved into is irrelevant

6) The bags were made of plastic

7) People gave the bags to the couple, but

8) The bags were not any type of gift

9) The bags are not "traditional" garbage bags

10) The bags came in many colors.

The solution:

Have you figured out the solution yet? The garbage bags are actually plastic bags from grocery

In addition to the monetary reasons, reusing grocery bags is a simple way to recycle and elimi

A few other super-easy ways to save money and recycle:

Save scrap paper. Save any papers that have nothing on the back or large blank spaces. Adverti

Save sturdy boxes from food, electronics, mailers, etc. Cover them with the Sunday comics or s

Save large, empty plastic soda and juice bottles. Fill them with water, and store in your free

Save torn and worn out clothing. Tear or cut them into pieces and use as rags for cleaning and
