

Title:

Jupiter Melody - Ionized water at a moment's notice

Word Count:

699

Summary:

Speed and efficiency are the hallmarks of this water ionizer.

Keywords:

water ionizers, water ionizer, water, ionizer, water purification

Article Body:

The Jupiter Melody JP104 Water Ionizer is all that is needed for you to receive energized, healthy water.

The success of this process is due to the usage of the ceramic Tourmaline in the filtration process.

The Jupiter Melody Water Ionizer has a wide range of positive attributes all of which contribute to your health.

An explanation of the Jupiter Melody Water Ionizer's Features:

Your ionizer has a built in automatic reversed cleaning program. This makes sure that any part of the ionizer is kept clean.

You are provided with a choice of different pH levels for your water and therefore are afforded the benefits of alkaline water.

The filtration process utilizes the 0.01 micron 3-stage method as well as the Biostone Infrared technology.

The Jupiter Melody Water Ionizer also makes use of large 5-plate polymer ion plated, platinum electrodes.

The use of incorporated computer circuitry in your water ionizer means that you have a far wider range of features.

There is a liquid crystal display that shows filter usage even though it is not a definite gauge.
