Article Body:

Natural hardwoods set off kitchen fixtures and floorings beautifully, which is why they are so

Mild soaps such as liquid dish detergent mixed with water work well for cleaning butcher block

Wood countertops intended for use as cutting surfaces are finished with penetrating oil, usual

Warm the oil up a little prior to applying with a soft cloth, wiping along the grain direction

What about all those spills and marks seemingly branded into the wood? How do you get rid of s

If you do decide to sand and reseal, consider using one of the professional alternatives to mi
