

Title:

Raised Air Beds - Used More Often for a Good Night's Sleep

Word Count:

341

Summary:

Traditional air beds were built to sleep low which left many feeling as if they were sleeping

Keywords:

raised air bed, adjustable air bed, air bed

Article Body:

Traditional air beds were built to sleep low which left many feeling as if they were sleeping

Unlike air beds of the past, these modern raised air beds create a much more comfortable night

The raised air bed also allows you to enter and exit them much more easily. This is great for

Air beds are not just for spare beds anymore. Many people use them as their permanent mattress

With the old air mattresses of the past, there isn't as much of a concern about losing air pressure

You may be very surprised by the comfort and features available with modern air beds. Many pe
