

Title:

Raising Bilingual Children: The First 5 Steps To Success

Word Count:

721

Summary:

"What is the best way fo raise a bilingual child?" is the question parents ask me most often.

Keywords:

bilingual children, raising bilingual children, multilingual children, raising multilingual children

Article Body:

When I was growing up, the only way to raise a true `world denizen´ was at an exorbitantly price.

The most common question people ask me is "How do I raise a bilingual child the best way?" "Easy."

Here are the first steps to raising your very own polyglot tot.

1. Family agreement: Even though agreement within the family is perhaps the most essential.

2. Enthusiastic, yet realistic: Once the idea of two languages has settled in, many people

3. The practical plan: Next, you need to make sure you have a plan. Agree on who speaks

4. Get together: Building a support network is probably the most underestimated success

5 Be patient: Raising multilingual children requires patience, and there are going to be

And, hey, remember, you´re not alone. Madonna, Andre Agassi, and Antonio Banderas are among the
