What Is Scrapbooking

The scrapbooks of earlier times used to be paper books on which we pasted clippings from newspapers.

Stores for Scrapbooking

The scrapbooking activity requires certain supplies to create the album. Some of these scrapbooking supplies are:

- i) Papers: The papers used for decorating the albums and mounting photos must be acid free.
  - ii) Plastic Sheets: Plastic sheets sized to fit the album pages protect them from dust, spots, and fading.
  - iii) Photo album binders: The photo albums come in formats like spiral bound, three ring, and two ring.
  - iv) Glues: Only acid free glues or adhesives should be chosen. Double sided tape adhesives are also available.
  - v) Embellishments: They add life to the album by decorating it with eye catching fun and interesting items.
- Scrapbooking Tools

These tools are required to develop a scrapbook. The basic tools are acid free pens, pencils, eraser, and glue.
